Thanks Terry.

While there will be some more risk communications follow-up with which Janine will assist tomorrow (Wednesday), we'll also use tomorrow to develop the process through which we will provide R3 support with data review, interpretation, etc. Once possible, we will get together to discuss and fine tune the process, etc.

Hi Terry - stand by bc you will be getting a request from Tito to support data review for the Dimock site in R3. HQ is standing up a mini EU, nothing crazy (I hope) but they do need your support. Thanks much and let me know if you have any concerns.
